

Hydraulic press

Ref. 030350

The **MESTRA** hydraulic laboratory press is sturdy and pleasing to the eye. It is simple and easy to handle, and the latest trends in new materials have been applied to its construction. Its oil-hydraulic system is designed so that the oil cannot escape from the chamber. All parts subject to wear are made of ground hardened and tempered steel and finished with epoxy paint.

The **MESTRA** press includes bottom plate recovery springs which enable it to be always in a ready-to-use position. The top plate diameter and the width between columns enable flask(s) to be inserted and removed with the **MESTRA Ref. 030380** press flange without having to raise or lower the spindle, thus saving time and trouble.

USEFUL SPACE

Height	235 mm
Width	140 mm
Piston maximum travel	25 mm
Maximum power admitted	15.200 kg = 400 kg/cm ²
Maximum power recommended	9.500 kg = 250 kg/cm ²

 (L) 270 x (W) 270 x (H) 570 mm |  22 kg

DIMENSIONS

Height	530 mm (screw down)
Width	225 mm
Depth	230 mm (without lever)
Diameter of the table	125 mm
Weight	20 kg
